ABOUT ZENGER FARM

At Zenger Farm, we believe that communities thrive when people have a direct connection to their food and where it grows. Founded in 1999, we are a 24-acre urban farm that promotes sustainable food systems, environmental stewardship, community development and access to good food for all. Each year, more than 10,000 people visit the farm. Through our work, we hope that Zenger Farm can serve as a model of a just food system: a place where everyone can connect to sustainably grown and culturally appropriate food.
